

How Does United Way Work?

1

Volunteers representing a cross-section of the community are chosen to serve on the United Way Budget & Allocations committee.

2

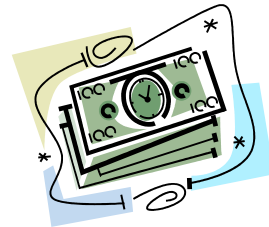

Volunteers analyze every detail of an agency's operation and financial data.

3

Agencies make a presentation to the allocations committee explaining programs and how their United Way funds are used.

4

Volunteers reach a consensus as to how the contributions will be distributed, and upon approval of the United Way Board of Directors, the contributions are distributed to United Way partner agencies.

5

Your contribution makes an investment in over 40 programs at 18 partner agencies, serving 7,000 people in our community last year.
